A-tab major functions

- Download necessary information for flight in-flight service and work offline in flight
- Completion of flight, report, survey, VIP Comment etc.

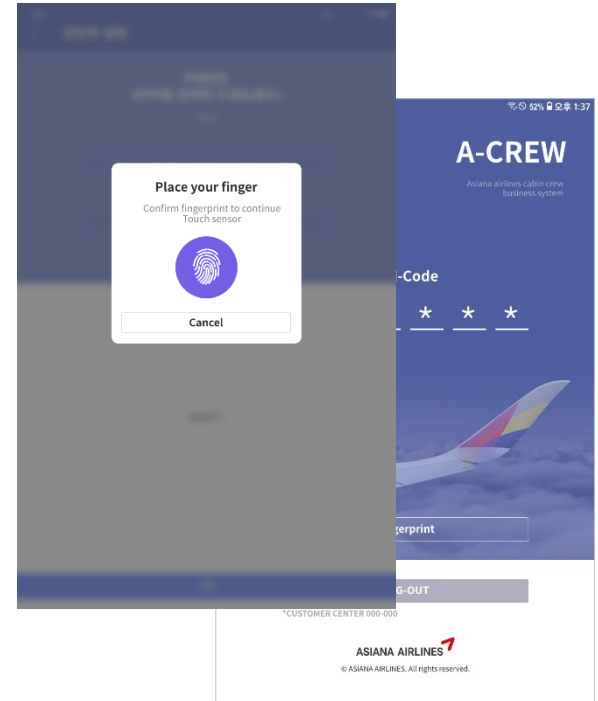

Sign-In
(Telepia ID/PW)

Enter Pin-codes(6 digit numbers) / Fingerprint
* Not allow same or serial numbers
(e.g 1111, 1234)
(A fingerprint set the tablet to use A-tab app)

Sign-in pin-codes or fingerprint
(Fingerprints have a high priority)

Schedules (NEXT SKD/ PREV SKD)

- Flight menu cannot use without downloading schedule
- Next SKD : Provides 8 schedules for up to 3 days
- PREV SKD : Displays the list of previously saved and passed schedules (only after 72 hours of maximum from arrival time)
VIP information is 24 hours based on departure time and other data is 72 hours based on arrival time

Consumption Survey

If stored data is available, it must be sent within 72 hours (3 days) after the flight is over. Automatic deletion after 72 hours of flight

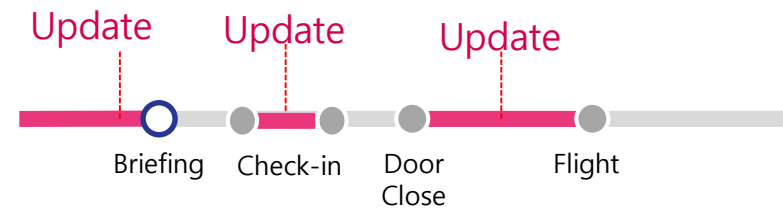

Hot to udate

1. Menu > FLIGHT > Schedule list
2. Select schedule > Upper right

When update

1. Before Briefing (show-up)
2. Immediately After Check-in
3. Immediately After Door Close

Warning to update

If you are not using Wi-Fi in overseas, you can send and receive only following data.

- Sign-In/Schedule/Briefing Info/PAX List

! If the network is good, it will be fast.

! In general, data updates can take up to a minute or more.

! Do not update data during flight (offline mode).

Please remind before using A-tab

1. If you do not have the required manual at first run, the app will not run. (CCM, SVC, ANN)
2. Download V3 Mobile Plus from Play store, otherwise A-tab will not run. (Check the "make google account" manual)
3. When you log out, keep in mind that all data including files, schedules, and temporary storage will be deleted
4. VIP information will not be available after 24 hours of departure time.
5. Flight information excluding VIP is not available after 72 hours of arrival time.
6. Push notification is not delivered when the tablet is not using Wi-Fi zone in overseas.
7. Roaming data is only available for specific A-tab connections in overseas. (Make sure to download flight data using wi-fi zone)
8. Fingerprint recognition is available after registering fingerprints in the Settings application in the device.
9. All files and information downloaded from A-tab should be securely managed.
10. When you use A-tab, you must update the app, and do not close the app during the update.
11. Note that menus will be opened at the end of August : Filebox, SeatMap, Report, Survey, Meal Order etc

Thank you
