Google Play Store – V3 application update

- The A-tab app is linked to the V3 security program for security.
- V3 requires a regular update, which requires a Google Play login.
- This article describes the Google Play Store sign-in process.

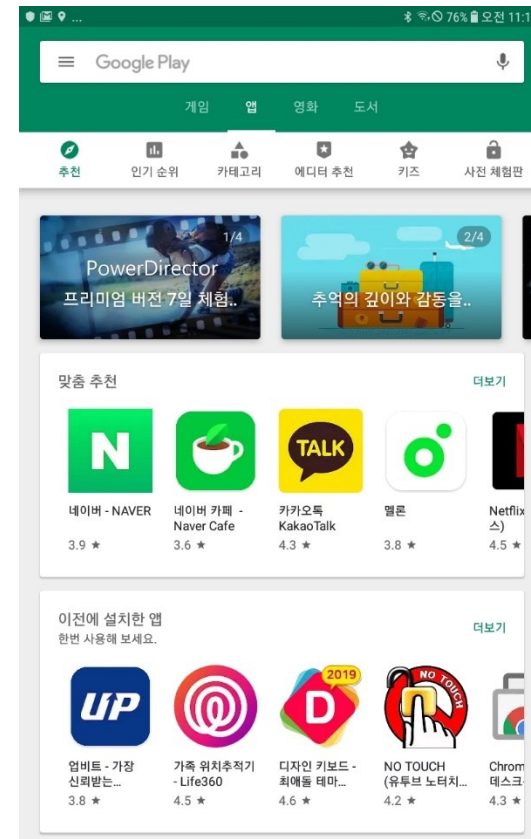

Launch A-tab app
(Check to update V3)

Play Store

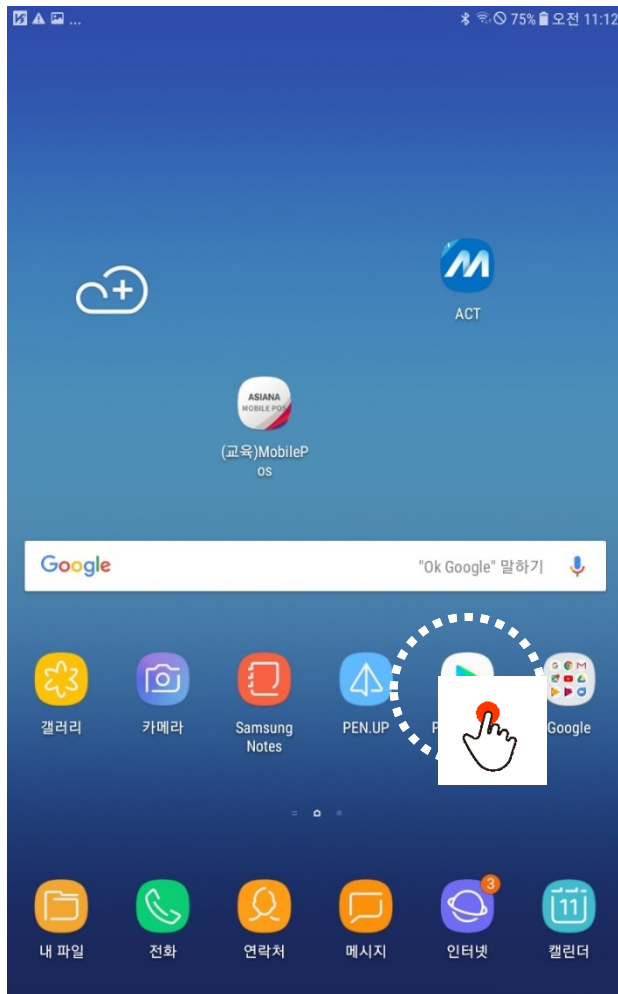

Updating V3

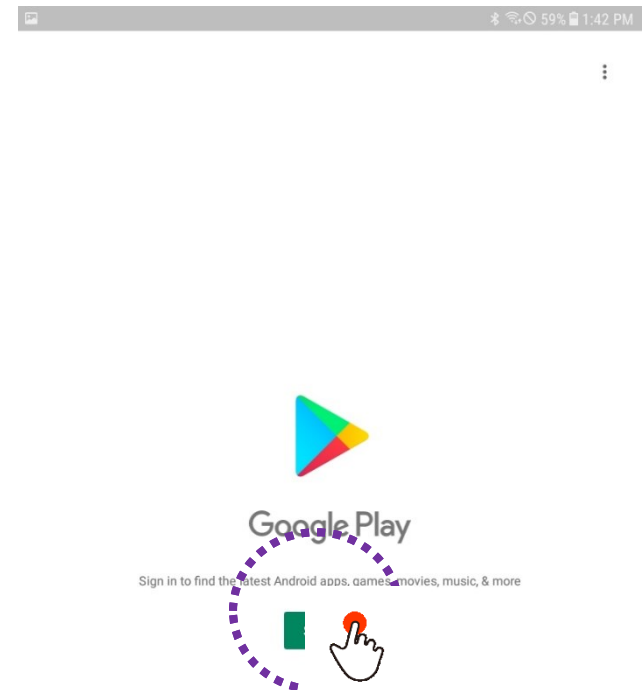

Google Play Store – Add your account

- Add your account at the Google Play Store
- If you add, check move 5 page.

1) Launch Play Store

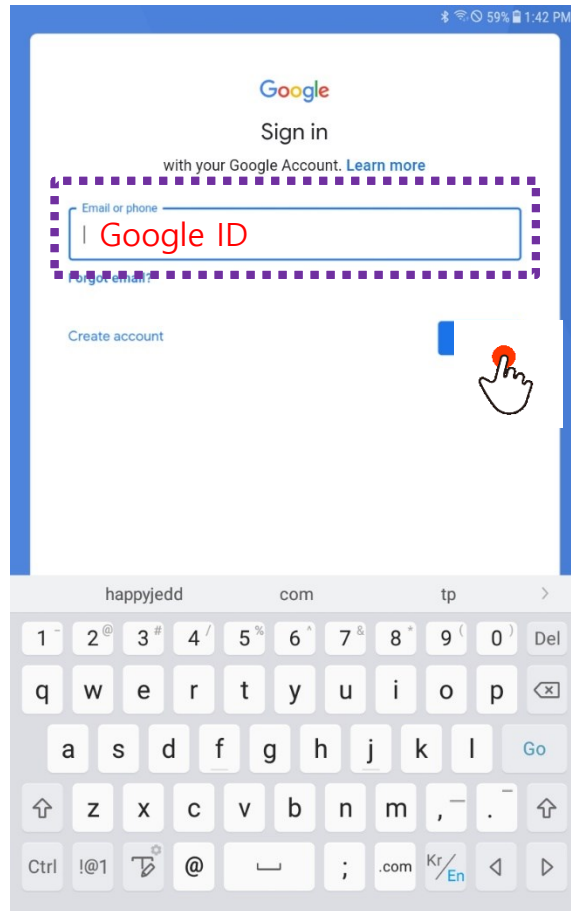

2) Login Play Store

Google Play Store – Add your account

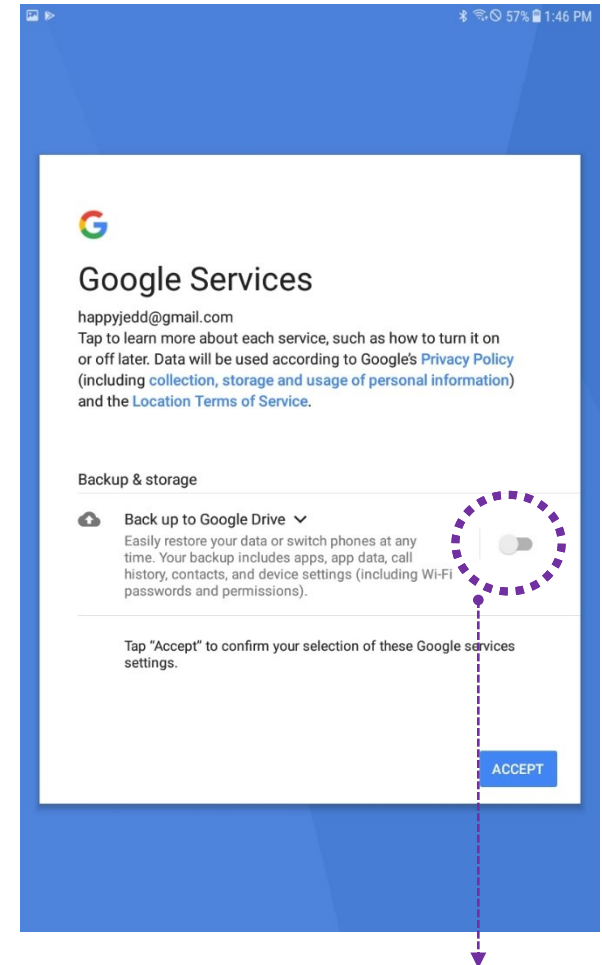

3) Enter Google ID

4) Enter Password

5) Google Drive backup set 'off'

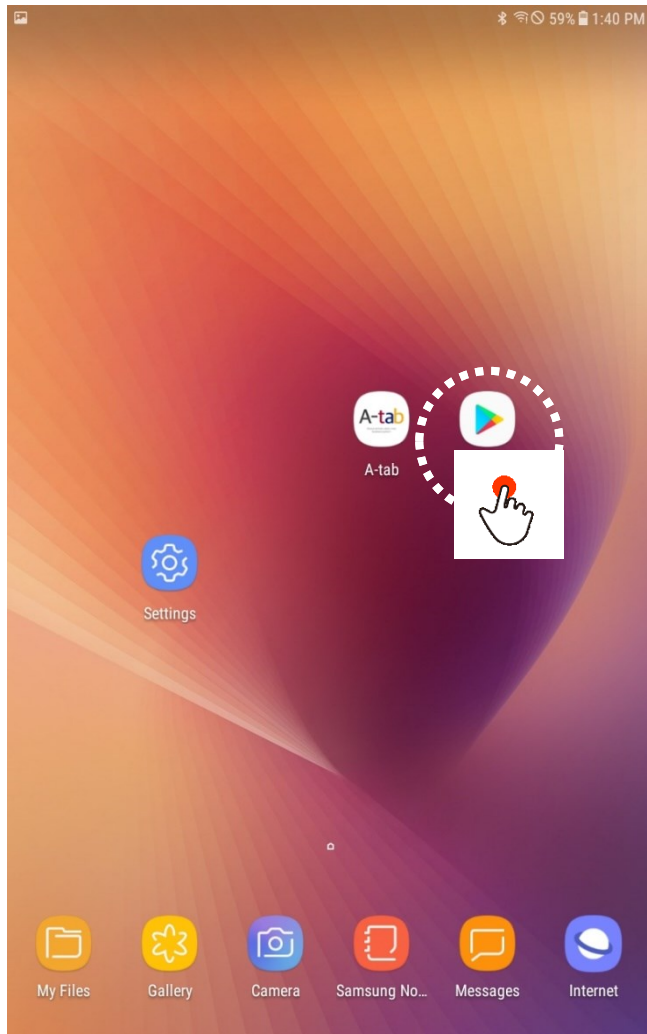

If Google Drive Backup is turned on, unnecessary data usage and tablet information may be leaked.

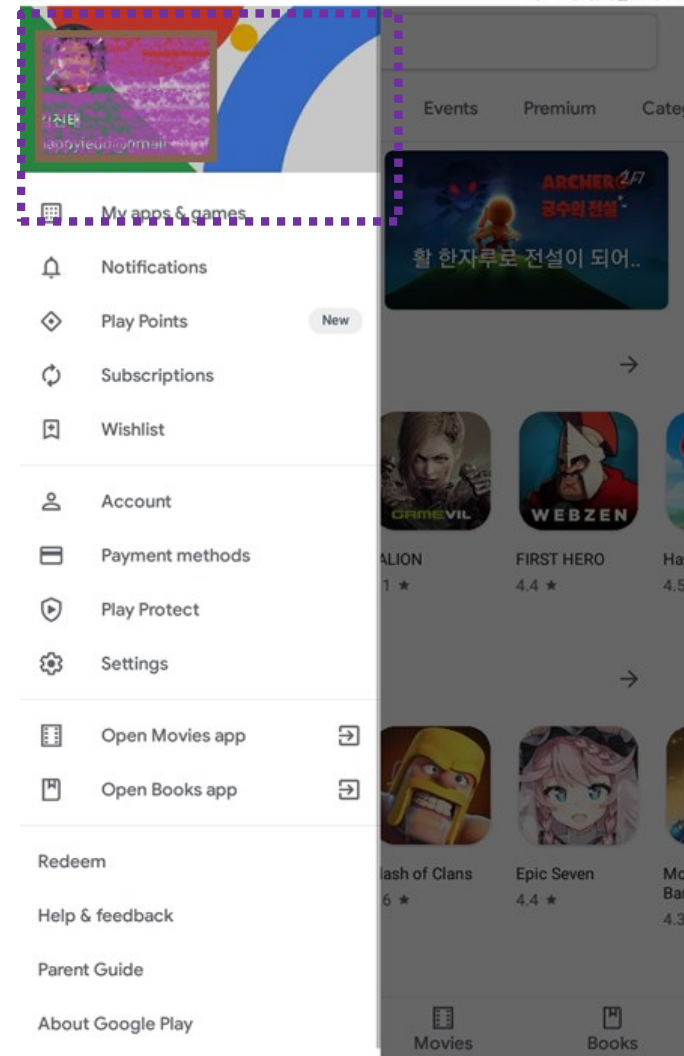

Google Play Store – Check your account

- Check the account

1) Launch Play Store

2) Verify your account after launching the top right menu

THANKS
